

George Zorakis

iOS Developer

EXPERIENCES

iOS Developer | SkyDynamics

2024 | Heraklion

I'm an iOS Developer at SkyDynamics, a leading aviation software and flight simulator company. I help create innovative apps for pilot training and aviation solutions. Our office is based at the Foundation for Research and Technology – Hellas (FORTH) in Greece, a major research and tech hub.

Web Developer - Designer | Solvit - Freelancer

2023 - 2024 | Heraklion

I worked as a Web Developer and Designer at Solvit – I.T. Solutions & Consulting, building custom WordPress websites focused on aesthetics, performance, and user experience. This role strengthened my skills in web development, design principles, and client communication.

Education

University of Heraklion,

Applied Computer Science & Multimedia, 2015

Studied software development, multimedia design, and applied computing, with hands-on experience in programming, UI/UX, and digital media. Took part in team projects and research on user-centered software solutions.

Heraklion's School of Music,

Music Theory & Composition, ∞

Ongoing studies in classical and contemporary music theory, harmony, and composition. Gained strong skills in musical structure, arrangement, and creative expression through solo and collaborative projects.
