Summary

Full-stack web developer with 3 years of software development experience. Combines technical skills with strong design sense to create applications that are both functional and visually clear. Focused on details, usability and quality in every project.

EXPERIENCES

2024 - 2025

Software Developer

Foundation for Research and Technology – Hellas (FORTH), Heraklion

I worked as an iOS developer in the aviation software and flight simulation field. Contributed to apps used for pilot training and aviation solutions, focusing on performance, usability, and reliable mobile experiences.

2023 - 2024

Web Developer - Designer

Solvit - Freelancer, Heraklion

I worked as a Web Developer and Designer at Solvit – I.T. Solutions & Consulting, building custom WordPress websites focused on aesthetics, performance, and user experience. This role strengthened my skills in web development, design principles, and client communication.

Education

2011
- 2015

Applied Computer Science & Multimedia

University of Heraklion

Studied software development, multimedia design, and applied computing, with hands-on experience in programming, UI/UX, and digital media. Took part in team projects and research on user-centered software solutions.

2003
- ∞

Music Theory & Composition

Heraklion's School of Music

Ongoing studies in classical and contemporary music theory, harmony, and composition. Gained strong skills in musical structure, arrangement, and creative expression through solo and collaborative projects.
